Gruvyer

FAMILY

Passeggiando per le vie cittadine, sorseggiando un drink in un locale, seduti ad un tavolo su una terrazza al mare o davanti ad un caffè nella cucina di un amico, chi non si è mai imbattuto nella sedia **GRUVYER**, il nostro articolo più richiesto ed apprezzato in tutto il mondo; con un design attraente, unico, giovane ed estremamente versatile. Disponibili in una vasta gamma di colori, classici ma anche intriganti, le nostre sedie e poltrone **GRUVYER** sono diventate in poco tempo delle vere e proprie icone, un "**MUST**" per un arredamento alternativo e creativo. Le sedie e le poltrone Gruvyer sono realizzate in polipropilene della miglior qualità, attraverso un processo di stampaggio ad iniezione, perfettamente impilabili grazie alla propria sagoma ed utilizzabili in qualsiasi ambiente, pubblico e privato. A completamento di questa linea di prodotti abbiamo affiancato anche altri modelli particolarmente apprezzati:

Gli sgabelli **SPIDER**, con telaio in metallo cromato fisso o con sistema di elevazione a gas, con le sedute che ripropongono lo stesso disegno delle sedie e Poltrone Gruvyer. Le sedie **GROOVE**, realizzate in **PP** lucido con diverse tipologie di telaio in metallo. I tavoli **GRUVYER**, quadrati e rettangolari, da abbinare alle sedie e poltrone Gruvyer, dando vita ad una composizione elegante ed armoniosa, che non passa inosservata. Della sedia Gruvyer e dello sgabello Spider potrete trovare anche una versione in **POLICARBONATO** trasparente, molto elegante, da abbinare ad arredamenti moderni e classici. Le sedie e poltrone **GRUVYER** sono coperte da **copyright** mondiale.

Strolling through the city streets, sipping a drink in a club, sitting at a table on a terrace by the sea or drinking a coffee in a friend's kitchen, who has never come across the **GRUVYER** chair, our most requested and appreciated model all over the world; with an attractive, unique, young and extremely versatile design. Available in a wide range of colours, classic but also intriguing, our **GRUVYER** chairs and armchairs are quickly become true icons, a "**MUST**" for an alternative and creative furniture. Gruvyer chairs and armchairs are made of the highest quality polypropylene, through an injection molding process, perfectly stackable thanks to their shape and can be used in any environment, public and private. To complete this product line, we have also added other particularly popular models: The **SPIDER** stools, with fixed chromed metal frame or with gas lifting system, with the seats that reproduce the same design as the Gruvyer chairs and armchairs. **GROOVE** chairs, made of shiny **PP** with different types of metal frames. The **GRUVYER** square and rectangular tables, combined with Gruvyer chairs and armchairs create an elegant and harmonious composition, that does not go unnoticed. From the Gruvyer chair and the Spider stool you can also find a version to combine with modern and classic furnishings. **GRUVYER** chairs and armchairs are protected by worldwide **copyright**.

Groove

Polipropilene Highmopp (High Module Polipropilene): si tratta di Polipropilene speciale ad alto modulo che ha la stessa rigidità del Policarbonato.
È quindi un Polipropilene lucido con la stessa portata e la stessa resistenza agli urti del Policarbonato. Anche l'aspetto esteriore è molto simile al Policarbonato. Solo il peso della sedia è inferiore in quanto il Polipropilene è un materiale più leggero.

Polypropylene Highmopp (High Module Polypropylene): this is a special glossy polypropylene which has the same rigidity and the same shock resistance as the polycarbonate.
Even the outer appearance is very similar to polycarbonate. Only the weight of the chair is lower because the Polypropylene is a lighter material.

Policarbonato

Polycarbonate

Il policarbonato è un materiale plastico d'alta qualità, sinonimo di estrema resistenza, leggerezza, luminosità elevata. Viene utilizzato in molteplici settori; dall'edilizia ai trasporti; dall'ottica all'aeronautica, nell'illuminazione e in campo medico. A partire dal 2009 anche la nostra azienda, grazie alle tecnologie avanzate delle presse e degli stampi, ha implementato una nuova linea di sedie interamente realizzata in policarbonato. Nascono così le meravigliose sedie di design FEMME FATALE, B-SIDE, JOKER, HYPNOTIC, GRUVYER fino alle più recenti NILO e LITTLE ROCK, con una speciale superficie antigraffio. Grazie all'eleganza del colore trasparente e audacia del colore rosso rubino o del grigio fumé, senza dimenticare la qualità e la robustezza del materiale, le nostre sedie sono apprezzate da una clientela molto vasta, per utilizzi in molteplici settori, pubblici e privati, indoor e outdoor. Tutte le sedie sono certificate per un utilizzo CONTRACT.

Polycarbonate is a high-quality plastic material, synonym of extreme strength, lightness and brightness. It is used in multiple sectors; from construction to transport; from optics to aeronautics, in lighting and in the medical field. In 2009, thanks to the advanced technologies of presses and moulds also our company was able to implement a new line of chairs entirely made of polycarbonate. We created so wonderful design chairs FEMME FATALE, B-SIDE, JOKER, HYPNOTIC, GRUVYER, up to the latest NILO and LITTLE ROCK, with a special anti-scratch surface. Thanks to the elegance of the transparent colour and audacity of ruby red or smoked grey, without forgetting the quality and robustness of the material, our chairs are appreciated many customers, for use in multiple sectors, public and private; indoor and outdoor.

Polipropilene

Polypropylene

Il polipropilene (PP) è un polimero termoplastico, inventato circa 50 anni fa ed in continua evoluzione, utilizzato oggi per la produzione di moltissimi oggetti, anche di uso quotidiano.

Da molti anni anche la Ditta IGAP S.p.A. / GRANDSOLEIL utilizza polimeri della migliore qualità per la produzione della propria linea di sedie e tavoli da giardino ed ambienti esterni, realizzando articoli resistenti, pratici, leggeri e di facile manutenzione. Negli ultimi anni IGAP S.p.A. ha introdotto, oltre al policarbonato, anche tecnopolimeri innovativi, derivati dal polipropilene, registrati con il marchio HIGLOPP e HIGHMOPP, con superfici particolarmente brillanti e, nei modelli glossy, molto somiglianti al policarbonato.

Sempre alla ricerca di nuovi modelli e materiali per la creazione di articoli esclusivi, di design, adatti a molteplici soluzioni per l'arredamento degli ambienti sia interni che esterni, IGAP ha abbinato il polipropilene anche al metallo cromato, dando vita ad una linea di sedie particolarmente eleganti, robuste, con diverse tipologie di telaio in metallo in modo da soddisfare ogni esigenza della nostra clientela.

Nuovissimi i tavoli BROOKLYN, in polipropilene con la struttura in metallo, con un design moderno e lineare, disponibili in diverse dimensioni.

Polypropylene (PP) is a thermoplastic polymer, invented about 50 years ago and in continuous evolution, used nowadays for the production of many objects, even for everyday use.

For many years the company IGAP S.p.A. / GRANDSOLEIL uses the best quality polymers for the production of its own line of garden and outdoor chairs and tables, making articles resistant, practical, light and easy to maintain.

In recent years, IGAP S.p.A. has introduced, in addition to polycarbonate, also innovative technopolymers, derived from polypropylene, registered with the trademark HIGLOPP and HIGHMOPP, with particularly bright surfaces and in the glossy models very similar to polycarbonate.

Always looking for new models and materials for the creation of exclusive design items, suitable for multiple solutions for the furnishing of both indoor and outdoor environments, IGAP has also combined polypropylene with chromed metal, creating a line of particularly elegant, sturdy chairs, with different types of metal frames in order to satisfy every need of our customers.

Brand new BROOKLYN tables, in polypropylene with metal structure, with a modern and linear design are available in different sizes.
